Certification

We certify that:

- the information provided in this financial report is accurate, and that the administration of the funding requested from the CFI is in accordance with the Institutional Agreement, the CFI Policy and Program Guide and the conditions of award as specified in the Award Agreement;
- appropriate resources are available for the operation and maintenance of the infrastructure over its useful life (i.e. the period of time over which the infrastructure is expected to provide benefits and be usable for its intended purpose, factoring in normal repairs and maintenance);
- all elements of the infrastructure project have been acquired/constructed in accordance with the Award Agreement and that the project is now complete (i.e. all the infrastructure has been acquired or developed and is operational, and all costs have been incurred).

Changes

Changes requiring prior approval

Indicate if either of the following changes have been made to the project and have not been previously approved by the CFI.

1. Changes to the infrastructure that have a negative impact on the project and its research objectives. Consult section 6.6.1 of the CFI Policy and program guide for examples of negative impacts.
2. The purchase of a new item (including increases in quantity of an item which may or may not be part of a functional group, and increases in full-time equivalent (FTE) units) for which the cost exceeds \$50,000.

Other changes

Describe all other changes from the latest approved budget, including but not limited to:

- New or replacement items
- Items not purchased
- Changes in item quantity
- Changes to the composition of items within a functional group
- Changes in full-time equivalent (FTE) units.

If changes have been made to the construction or renovation from what was described in the latest approved budget (e.g., changes in floor plans, size and nature of the space, etc.), attach the final floor plans and a description of the changes to this report.

The CFI reserves the right to review changes to ensure that they are acceptable, as outlined in [section 6.6.1 of the CFI Policy and program guide](#).
