President of Érudit

Fighting misinformation and mistrust in science: the potential of robust major scientific infrastructures

Quel potentiel pour des ISM
robustes dans la lutte contre la
désinformation et le manque de
confiance en la science ?

COALITION
PUBLICA

Live poll (show of hands)

In your opinion, which lever is the priority and why?

- a) Regulation (e.g., social media and data governance)
- b) Education
- c) Technology
- d) Cross-sectoral collaboration (between social sciences and health, among the infrastructures present here...)
- e) Other?

Open micro : the floor is yours

Is it sometimes necessary to slow down innovation to protect the integrity of information?

Would someone like to reflect on this?

Your key takeaway messages

What should be the conclusion of this round table ?

One postcard and a pencil:
3 key words to remember from this discussion.

Thank you to:
the panelists,
the audience,
the CFI
