# RESEARCH FACILITIES

Where business finds research

## RESEARCH FACILITIES

The Navigator is a free, easy-to-use search tool of research facilities in universities, colleges and hospitals across Canada that are open to working with business.

## A single tool with multiple benefits

### For companies

It is an avenue to finding the research facilities that can help their business grow, stay competitive, design new or better products or processes, and foster relationships with highly skilled people.

### For research facilities

The Navigator is a way to promote their research capabilities, attract research talent and connect with industry partners.
